+ Legs required if machine installed with condensate pump.

△ Price per machine

* Special order unit. Please take longer lead times into consideration. Please note ALL special order units cannot be cancelled and are non-returnable.

** Water cooled units should have the condenser circuit connected to a self contained recirculating system. It is likely that the connection of such units to the mains water supply may be a contravention of local water authority by-laws.

HOSHIZAKI

INSTALLATION NOTES

Install & removal costs of all modular units include both the ice machine and storage bin.

Costs for the IM-240X type apply only when Installed along with a IM- 240D.

Multiple machine installs during the same visit receive a £50 cost reduction from the 2nd machine.

Please contact our office for price on bin only, specific modular sections plus all modular units on ITS, DEV and SG systems.

Installation costs applicable to clear access only and exclude costs for security or permit requirements.

All equipment

Installation prices are based on completion during normal working hours (Mon - Fri, 8.30am - 5.00pm) with same level access to site and adequate site services within one metre. Same day delivery and installation service available upon request (POA).

Removal prices are based on a like for like basis and are only available when purchasing installation.

Icemakers and associated equipment

Standard installation costs are for UK mainland only excluding the following postcodes;

For Scotland: AB, IV, KW, PH, PA15 to 41: POA.

For Republic of Ireland, Northern Ireland and UK offshore islands: POA

A 20% surcharge will be added to the following postcodes;

London: E, EC, N, NW, EC, SE, SW, W, WC.

Full installation Terms & Conditions available on request. Please call for machine specific installation guidelines.

GENERAL NOTES

Special order units cannot be cancelled or returned. Longer lead times on special order units.

Standard kerbside delivery is made during working hours. Additional charges apply for timed delivery or special requirements (POA).

Hoshizaki recommend the purchase of the relevant plumbing kit with all modular ice makers and storage bin combinations.

Water cooled units should have the condenser circuit connected to a self- contained recirculating system.

It is likely that the connection of such units to the mains water supply may be a contravention of local water authority by-laws.

Carriage charges apply to accessories that are ordered separately.

Prices exclude VAT or other taxes. Prices and specifications are subject to change without prior notice. Hoshizaki cannot be held responsible for any typographical errors that may be found in this publication, as a result of translation or otherwise.

Visit www.hoshizaki-europe.com for the latest model and specification updates. Please contact the sales office for further assistance.

WARRANTY

The New IM Hoshizaki ice machines are supplied with a three year warranty parts and labour.

All other ice makers, storage bins and ice crushers are supplied with a two year parts and labour warranty. Condensate / drain pumps and accessories are covered by a one year limited parts only warranty.

Failure to maintain and clean the pump as per manufacturers guidelines may invalidate the warranty.

For full installation/delivery Terms & Conditions please review our Full Pricing Brochure or request a copy from your Account Manager.
